ShuleApp Platform Overview & System Modules (2026)

The Comprehensive School Management System & Verified Opportunities Portal

1. About ShuleApp

ShuleApp is the modern, all-in-one African EdTech and school management platform designed by YanaCorp. It replaces fragmented paper registers, slow manual grading, and unverified tuition reconciliations with a unified, high-speed digital dashboard accessible on mobile and web.

2. Core Production Modules

- Administration & ERP: Digital registers, staff files, class streams, asset inventory, and official reporting.
- NECTA Continuous Assessment (CA): Automated mark entry, stream rankings, and batch terminal report card generation.
- Fee Collection Automation: Direct automated reconciliation with Vodacom M-Pesa, Tigo Pesa, Airtel Money, CRDB, and NMB.
- Parent Communication Portal: Automated bilingual (Swahili & English) SMS arrival alerts, fee balances, and exam feedback.
- Campus Logistics & Boarding: Gate roll-call, hostel allocations, and library book tracking.

3. Verified Opportunities & Scholarships Directory

Integrated directory connecting secondary and university students with verified local and international scholarships (IUCEA, Aga Khan, MasterCard Foundation, HESLB, FAWE) featuring automatic deadline expiration.
